DDBS LEARNING

The Distance, Demonstration-Based
Skill Learning Method

What is it?

An innovative method for efficient and accountable distance learning.

Transform the way you teach and learn practical skills!

For Whom?

Educators and staff of education institutions. Learn how to implement the DDBSL method in your online courses.

Objectives:

- Understand the unique needs and motivations of adult learners.
- Train educators in using DDBSL for online courses.
- Foster innovative pedagogical techniques to turn learners into active participants.
- Design effective materials and courses for distance learning.
- Support diverse learners online.
- Design online activities and assessments.
- Select appropriate learning technologies.
