

# DDBS LEARNING

The Distance, Demonstration-Based  
Skill Learning Method

## Newsletter 3

### Third DDBSL Meeting in Germany

Our third DDBSL meeting, held in Germany from July 3rd to 7th, 2023, was a significant milestone for our community.

The event included a memorable social event at the Gasometer in Oberhausen, where participants had the opportunity for meaningful discussions and networking, which could be further deepened at a final dinner.

### Visit [dbsl-project.eu](https://dbsl-project.eu) to learn more about DDBSL

Pioneering a new method for efficient and accountable distant learning, crucial in today's rapidly changing technological and economic landscape. By integrating observation and feedback tools, it facilitates the remote delivery of practical skills, empowering educators to adapt to the evolving needs of society.

### DDBSL Workshop and Welding Workshop

As part of our Learning and Training Activity (LTA), we conducted a DDBSL workshop from July 4th to 6th, 2023.

This busy workshop was a mix of theoretical and practical learning, which greatly advanced the outcomes such as the creation of the curriculum, project manual and Project website content

The workshop, which focused on foundational welding techniques, reached its climax with an engaging basic welding course. This course provided all participants with hands-on experience, allowing them to actively engage in practical welding exercises. The participants had the opportunity to work directly with welding equipment, gaining valuable skills and confidence under the guidance of experienced instructors.

## Presentation at the Welding and Cutting Trade Fair

Karina Sydekum, head of the training department at the SLV Bildungszentren Rhein-Ruhr, represented our project on September 11, 2023 at the welding and cutting trade fair in Essen.

She presented the Erasmus+ project, the innovative DDBSL method and the innovative aspects of the project through case studies and highlighted its impact on vocational training.

## Project Extension and Upcoming Plans

We are pleased to announce the extension of the DDBSL project until April 30, 2024

This extension will allow us to plan national "Train the Trainer" courses scheduled for February and March 2024 to ensure wider dissemination and impact of our project's methodology.

The planned courses are offered free of charge in the respective partner countries. Follow us! Further information will follow on the project website.
